## PROFILE

Enthusiastic and diligent third-year IT Engineering student with a profound passion for technology and a knack for creative problem-solving. Eager to contribute my skills and knowledge to a dynamic team or project that aligns with my interests in the ever-evolving field of Information Technology.

## WORK EXPERIENCE

### Weather Application

Designed a dynamic Weather App

- Developed a dynamic Weather App using a combination of Html CSS and JavaScript. This application not only showcases my proficiency in front-end technologies but also demonstrates my ability to create a user-friendly and responsive interface.
- Real-time Data: Integrated with a weather API to fetch and display up-to-date weather information.

### Postman API Fundamentals Student Expert

Participated in an event with colleagues to teach students the importance of APIs in modern software development.

- How to use Postman to work with APIs
- Making GET, POST, PATCH, and DELETE requests
- API Key Authorization, APIs in applications

### Myntra Functional Clone

designed a dynamic Myntra App

- Developed dynamic interactive user interfaces for websites and applications like Myntra Functional Clone.

### Bat Ball Stump Game

Interactive web game

- Developed the "Bat Ball Stump Game," an interactive web game with unique rules, enhancing my frontend technology and game logic skills.

## ACCOMPLISHMENTS

- Spiritual Youth Parliament: Winner and Gold Medalist in G20 Summit 2023 #vasudevktumbh
- Emerged as the winner in the inter-college singing competition
